Control pick up from 1.30pm

### ORIENTEERING ACADEMY

A role of the academy is to create training opportunities leading up to major events.

Our aim is to pass on skills learnt by our JWOC and WOC members on to our best orienteers so they can go to a higher level

To do this we want to develop a training day prior to major school events. We plan to start in March and will advise date and venue.

We also want to encourage parents of students to develop their own skills and invite them to take part also.

The academy may also provide financial assistance from our club, you need to show commitment to our programs and apply for funding
